- Pusher notifcations and runtime update managment.
- Web Sockets creation and APIs interation through Web Sockets.
- 3rd Party APIs Integrations
- Github, cPanel

Profile

Full stack web developer with over five years of experience building and maintaining production web and mobile applications, with a particular focus on Laravel and React. Comfortable owning a project end to end — from database design and API architecture through to a polished, responsive front end. Experienced in payment gateway integrations, real-time systems, and working directly with clients across Pakistan, the Middle East, and Southeast Asia. Currently building a hospital management platform and an HR management app, while continuing to take on freelance integration work on the side.

Work Experience

Full Stack Web Developer

Brainiac Creation

April 2026 – Present

Karachi (Pakistan) – Full Time – On-site

- Building a Hospital Management System from the ground up with a Laravel backend and a React front end, covering separate Admin, Patient, Reception, and self-service Kiosk panels.
- Designed the appointments module end to end, including time-aware slot validation, doctor availability logic, and printable queue tokens reused across all three panels.
- Set up the core Eloquent model architecture around a single User model with role-based profiles, plus custom, human-readable ID generation for patients, doctors, and appointments.
- Developed a React Native mobile app (via Expo) for HR management, including leave and claims tracking, attendance, and document uploads.
- Built a library of reusable hooks and components to keep development consistent across multiple concurrent projects.

Full Stack Web Developer

Coder Lab Solutions LLC

July 2025 – March 2026

Dubai (UAE) – Full Time – Remote

- Maintained and extended full-stack solutions for several client projects at once, balancing feature work with ongoing support requests.
- Worked on a policy and claims management system for a Dubai-based insurance client, handling policy lifecycle tracking and claims workflows.
- Built out course management, student tracking, and parent communication modules for a kindergarten learning management system.
- Took on side integration work for other clients, including a mobile-money payment gateway (SycaPay) and a Malaysia-focused pet subscription e-commerce site.

Education

Bachelors of Science
– Computer Science
Virtaul University
of Pakistan – Final Year

Languages

- Urdu – Native
- English – Medium

Full Stack Web Developer

Tesseract Innovations (Pvt) Ltd

October 2024 – June 2025
Karachi (Pakistan) – Full Time – Remote

- Contributed to a real-time trading application as part of a small backend-focused team.
- Built the Trade Responder module handling live trade execution logic and response handling.
- Developed core pieces of the Liquidity Management System to help keep order books balanced during active trading.
- Worked on several supporting components tied to real-time market data and trade processing.

Laravel Developer

AZ Solutions

October 2022 – April 2024
Hyderabad (Pakistan) – Full Time – On-site

- Designed relational databases and built several projects from scratch, from initial schema design through to a working product.
- Integrated a range of payment gateways, including crypto payment gateways, to support different client needs.
- Integrated third-party APIs such as the Amazon Affiliate API and KYC document verification services.
- Implemented real-time features using Pusher and Firebase Cloud Messaging for web socket notifications, live view updates, and a ranking system.

Core PHP Developer

QTechnology Solutions

November 2021 – September 2022
Hyderabad (Pakistan) – Full Time – On-site

- Built a Time & Attendance system supporting three distinct roles — Admin, Manager, and Employee — each with its own permissions.
- Implemented check-in/check-out functionality along with timeshift management for different work schedules.
- Developed a reporting system to calculate overtime, early departures, and other attendance metrics automatically.
